

Office of the Mayor

# **You asked We delivered!**

**I am pleased to announce that I was informed by the Federal Emergency Management Agency (FEMA) that the City of Florida City's application that the City be considered as a vaccine distribution site has been approved.**

**Beginning WEDNESDAY, MARCH 3, 2021 at 9:00 AM you can be vaccinated at the Florida City Gymnasium complex located at the corner of Davis Parkway and NW 5<sup>th</sup> Avenue, Florida City, FL. They will be using the Pfizer 2 dose Covid Vaccine.**

**Initially vaccines will be available to any area resident over the age of 65. We are projecting up to 500 vaccines daily. We have worked very hard to make this vaccine available in our community. I am now asking that you help us protect you by stepping up and taking advantage of this tremendous opportunity.**

**There will be individuals canvassing the neighborhood to sign you up. Please do not be afraid as the canvassing is with the city's complete authorization. Additionally the City will be providing free transportation using our Freebee vans both to and from the vaccination site.**

**As your Mayor I am asking that Florida City and our neighbors make it clear that we want to see our community protected. I have done my part, now it is time for you to do yours. Let's stand up and protect each other.**
